Rental Program

For the times when you need daily, weekly, or monthly use of 2-way radio equipment, BearCom Rental is the answer. With the nation's largest fleet of equipment and the support of our experienced communications engineers, we can exceed your expectations.

Expert Assistance and Support

Along with reliable, quality equipment, you'll get something extra: BearCom's team of experts. We'll listen to your needs and design a system that meets your exact requirements to help your special event or project run smoothly, safely and profitably.

Service Provided

24-hour on-call service and support; our nationwide offices to assist you whenever your next event may be; free programming on our private carrier frequencies or on yours; delivery and pick-up available for a nominal fee. On-site demos available at no charge to determine the requirements per location.

Rental Equipment

BearCom's current inventory consists of over 20,000 portable and mobile radios and a large number of Nextel phones and cellular phones are available.
