Responsible Razzledazzle Delivered

Creative Childcare Solutions consistently rocks kids' worlds, while nearby their parents enjoy a special occasion or event free of distractions or worry. We decorate the designated space and set up arts and crafts, toys, music, games, and activities kids enjoy. Kids get to be kids. And parents get to finish a sentence. Always safe and secure. Always a boatload of fun.

Details, Details, Details, and More Details. Covered.

This is not one-size-fits-all childcare. Every child is unique and every event is different. We go anywhere you need us and take care of anything that crops up. Children with special needs? Separation anxieties? Allergies? A child who needs to be met at the airport? No worries. We're trained, attentive, flexible experts who love kids. Whether it's throwing an entirely separate celebration for your younger guests, leading kid-friendly activities at the reception, providing one-on-one childcare in their hotel rooms, holding a baby during the ceremony — or any combination of the above, we'll create the perfect solution for the situation, we'll take care of every single detail. You might even call us detail-obsessed.

Boring Babysitters Banned

We're also over-the-top picky about our staff. Creative Childcare Solutions does not hire teenagers. We hire only professional, experienced caretakers or educators who have been extensively screened by us — and the FBI. All our caregivers are CPR and first-aid certified. They know how to keep kids safe and entertained. We have over 20 years of experience and an extensive list of references from thrilled clients.

Warning: The Kids Won't Want to Leave

Kids love us. Parents love us. Event planners love us. You'll love us, too.

- Online registration available.

LENDING A HAND

We have been asked to provide childcare services for the children under 5-years old attending a very special event in Washington, D.C. every Memorial Day weekend. This group provides support for families who have lost a family member while training for or in a war.
