

Travel Green!

ecoShuttle proudly provides sustainable transportation for weddings, tours and special events. Our helpful and friendly staff is dedicated to planning and executing successful services with extreme customer care. From the first phone call or email to the follow-up, you will enjoy working with us.

The largest portion of our business comes from repeat clients and referrals. Find out why our valued customers love us so much, and we guarantee you will walk away pleasantly surprised. We dedicate ourselves to giving you the customer service you deserve and so rarely receive from other service providers.

"Saturday was PERFECT! The driver was awesome and perfect! You did such a great job setting everything up! I have already had an acquaintance from high school ask about the awesomeness and I gave her your info. Treat her right. :) I will absolutely use your services again. Best day ever...so easy! Our driver took a ton of pictures for us... which brought us to the great idea that You guys should totally add that as a part of services. You and your company are fantastic! Call me anytime with questions or ideas. Consider me a devoted fan and partner." – Abby C.
