About GuildWorks and Architecture of the Air

GuildWorks transforms event spaces by creating innovative forms using tensioned fabric structures. We build "Architecture of the Air." These unique volumes and shapes work magically with light and color giving your event a distinct and memorable presence. Quite simply, there is nothing else like it.

GuildWorks designs in close collaboration with its clients. We offer solutions from our rental stock as well as custom designs – solutions that fit your purpose and budget.

GuildWorks' large selection of suspended shade structures and rain covers provide imaginative architecture for outdoor events, businesses and residences. Our versatility in size and scale encompasses everything from intimate wedding settings to full-on festivals spanning city blocks. We specialize in creating singular and spectacular settings for retail and product launches. Indoor event solutions can draw from GuildWorks' extensive inventory and/or reasonably-priced customized pieces produced in-house.

From intimate to grand, at GuildWorks, we pride ourselves in being a diverse and growing visual design company, now in our 16th year of providing beautiful environments to our clients.

Testimonial

"I was blown away by the set for our annual meeting - and so was everyone in the audience. You really raised the bar for us. Thank you so much. It was absolutely stupendous."

Sandra McDonough, President & CEO Portland Business Alliance
