Samantha Swaim Fundraising LLC, Helping You Succeed at Your Next Fundraising Event

Samantha Swaim Fundraising believes that dedicated groups of people can change the world. And we think non-profits are at the center of that change.

We are a full-service non-profit fundraising company specializing in event-based philanthropy. Our clients are predominantly non-profits looking to diversify their income by including events in their strategic development plans. We partner with your organization to identify ways to reduce your workload and increase your fundraising during your next event so you can go out and continue changing the world.

"Sam is a masterful fundraising event planner. With strategic visioning abilities and theater production expertise, Sam produces events that uniquely highlight a non-profit's work AND raise money. Sam's keen intelligence and sharp organizational skills keep event crews cool under pressure. With strong team support, Sam juggles program development, volunteer management, fundraising pitch creation, entertainment selection, auction procurement, food and beverage planning, and event décor design with efficiency, style and grace. She's extraordinary!"

— Jennifer McDonald, Director of Giving at DoveLewis
