About The Salem Conference Center

LEED Certified and EarthWISE Certified, the Salem Conference Center continues its efforts to be sustainable by adding a solar power generation system. The newly installed SANYO HIT Power® 220A solar panel 99-kilowatt system is expected to generate about 11% of the building's total energy usage on an annual basis. Meeting planners holding events at SCC can feel good that a portion of the electricity used to conduct their meetings will be directly generated by the sun!

Location

Located mid-way between Portland and Eugene, in the heart of downtown Salem, the Salem Conference Center is just minutes from the State Capitol and surrounded by an array of unique shops, restaurants, theaters and museums. SCC's stunning architecture, combined with the annual Oregon Artist Series Art Exhibit, offers a strikingly beautiful venue for hosting events of all kinds.

Adjoining the Grand Hotel in Salem and Bentley's Grill, visitors to the Salem Conference Center can Meet, Eat & Sleep without leaving the building – Twitter #salemblock.

Bravo! Member Since 2004
